

NOTICE TO MARKET PARTICIPANTS AND STAKEHOLDERS

Date: April 1, 2015

Re: Revocation of Feedback - Trading on Wind Outage Information.

As of April 1, 2015 the AESO has implemented new rules (Rule 306.5) that require wind assets to keep AESO informed of generation availability the same as any other type of generator. As a result of this change in ISO rules the MSA has revoked, as of April 1, 2015, its feedback note of April 13, 2012 entitled [Feedback - Trading on Wind Outage Information](#).

Yours truly,

/s/ Matt Ayres

Deputy Administrator and Chief Economist
