RE: Stakeholder Consultation: Amendment to Market Share Offer Control Process (Final)

The Market Surveillance Administrator (MSA) has been seeking stakeholder feedback on amending the Market Share Offer Control Process in order to utilize the offer control data collected by the ISO, and reduce the administrative burden for market participants.

During the consultation no comments were received from stakeholders. Consequently the MSA is finalizing the process document and posting it to its website. The content remains unchanged from the draft. The MSA anticipates commencing the 2013 offer control assessment in the next few weeks.

The final process can be found here: [Annual Market Share Offer Control Process](#).

We appreciate your participation in these matters.

Yours truly,
