ISO Rule Section	203.3	Date of Contravention	May 23, 2019

### EVENT DETAILS

On May 23, 2019, at approximately 09:53:20, the City of Medicine Hat submitted a MW restatement, redistributing the MW of CMH1's offers for HE 11 and HE 12. This restatement impacted settlement intervals within T-2. Information available to the MSA indicates that the reason for the MW restatements, to cover "expected city load", does not appear to meet definitions (i) through (vi) of an acceptable operational reason as per the AESO Consolidated Authoritative Document Glossary. Section 203.3 of the ISO rules states in part:

- 4(1) A pool participant that submits an offer may submit a MW restatement prior to two (2) hours before the start of a settlement interval.
- (2) A pool participant that submits an offer must submit a MW restatement redistributing the MW to represent the operating state of the source asset, as soon as reasonably practicable, if the source asset cannot comply with the current offer as a result of:
- (a) either
    - (i) an acceptable operational reason; or
    - (ii) an operational deviation and such restatement is required under subsection 5(3) of section 203.4 of the ISO rules, *Delivery Requirements for Energy*, and an available capability restatement under subsection 2 cannot reasonably accommodate the source asset's operating state; or
  - (b) carrying out either one (1) or both of commissioning and testing under section 505.3 of the ISO rules, *Coordinating Synchronization, Commissioning, WECC Testing and Ancillary Services Testing* or under section 505.4 of the ISO rules, *Coordinating Operational Testing*.
- (3) A pool participant must submit the reason or reasons for submitting a MW restatement in accordance with subsection 4(2)(a) if such MW restatement is submitted within two (2) hours of the start of the settlement interval or within the current settlement interval.
