### MSA FINDINGS

On January 11, 2025, during HE 20, BRA was dispatched to provide spinning reserve.

Section 205.5 of the ISO rules states, in part:

6(1) A pool participant must ensure that, while its pool asset is under dispatch to provide spinning reserve, the governor or governor system of each spinning reserve resource providing spinning reserve is operating such that it is:

- (a) in service at all times; and
- (b) operating without load limiters or other control systems including outer control loops that would prevent the governor or governor system from achieving the maximum frequency response.

While under dispatch to provide spinning reserve, a BRA spinning reserve resource did not have a governor system in service which met the requirements set out in subsection 6(1) (a) and (b) of section 205.5 of the ISO rules. The MSA is satisfied that the event was a contravention of Section 205.5 of the ISO rules.
