

## NOTICE TO MARKET PARTICIPANTS AND STAKEHOLDERS

June 24, 2026

### RE: Stakeholder Feedback on MSA Forms

---

The MSA recently published [notice of the publication of the final Investigation and Enforcement Process](#) (IEP) which will come into effect on September 1, 2026. In preparation for implementing the IEP, the MSA has drafted new versions of the self-report and mitigation plan forms for stakeholder feedback.

This feedback is not being sought under the MSA [Stakeholder Consultation Process](#); submissions received on the forms will be considered by the MSA in developing the final forms but will not be published or responded to.

The draft forms include items in consideration of the feedback received during the IEP consultation, including:

- specific fields for those requirements that are set out in section 4 of the IEP;
- optional questions that relate to specific forbearance criteria; and
- the mitigation plan form having been made generic to cover both reliability standards and ISO rules.

The draft forms linked below are published in Word / Excel formats to make it easier for stakeholders to comment on. The MSA intends the final Word forms to be published in a fillable PDF format.

[ISO rule self-report form](#)

[Reliability standard self-report form](#)

[Mitigation plan form](#)
