

NOTICE TO MARKET PARTICIPANTS AND STAKEHOLDERS

Date: February 20, 2013

Re: Presentations to ACDC, February 7, 2013 per recent MSA Feedback and 2012 Compliance Activities

The MSA was invited to present to the Alberta Compliance Discussion Council (ACDC) on February 7, 2013. The first presentation related to a recent feedback document published by the MSA on November 7, 2012 titled "Feedback – Excess Energy / Increased Capacity Offers of PPA Units". The presentation can be found [here](#). A second presentation provided a preview of the MSA's 2012 compliance enforcement activities in relation to ISO rules and Alberta Reliability Standards. The presentation can be found [here](#); however, the MSA's 2012 Compliance Review has now been published separately.

Yours truly,

Market Surveillance Administrator
