

## NOTICE TO MARKET PARTICIPANTS AND STAKEHOLDERS

Date: January 15, 2014

**Re: Forbearance re AESO Compliance per ISO Rule Section 203.6**

On September 26, 2013, the MSA posted a copy of a letter issued to the Alberta Electric System Operator (AESO) outlining a compliance issue pertaining to the AESO in respect of certain provisions of ISO rule section 203.6 – Available Transfer Capability and Transfer Path Management applicable to itself. The MSA indicated that it was prepared to forbear in regards to the matter subject to three identified conditions. The MSA is satisfied that all conditions were met by the AESO as of December 10, 2013 in accordance with the MSA’s [letter](#) of September 26, 2013. As such, the MSA does not intend to pursue this matter further and will close its file on the matter.

The MSA thanks the AESO for its co-operation in this matter.

Yours truly,

*“Original Signed”*
